Enhancing Patient Care

We believe that a trained and monitored workforce produces the results. With this aim we are providing consulting services to Hospitals, Pharma and related industries to train and re-train their resources.

The firm has over four decades' experience in staffing healthcare facilities means we understand the challenges small communities face and have proven solutions to fill those unique needs nationwide.

Our putting-people-first approach leads us to greater personal understanding and personal contact with the physicians we present — that results in better quality candidates. Our approach to cost containment is an end-to-end solution that encompasses not only rates, but soft savings and, most importantly, our ability to fill better and faster than anyone else.

Finance and Accounting Services

At Nangia Group, our finance and accounting services are a cornerstone of our healthcare managed services offerings. We understand that the financial health of healthcare organizations is critical to their success, and we are committed to leveraging our financial expertise to optimize financial performance. Our range of finance and accounting services includes managing accounts payable and receivable, conducting financial analysis, providing bookkeeping services, processing payroll, ensuring tax compliance, budgeting, forecasting, and financial reporting. We understand that each healthcare organization has unique financial needs and challenges, and we work closely with our clients to provide customized financial solutions that align with their strategic goals. Our team of experienced financial professionals is dedicated to providing our clients with exceptional service and support. We strive to maximize financial efficiency and transparency, reduce costs, and improve overall financial health for the healthcare organizations we serve. At [company name], we are committed to helping our clients achieve their financial objectives and ensuring compliance with regulatory requirements.

Strategic Healthcare Consulting

At Nangia, we offer strategic planning services that are specifically designed to help healthcare organizations achieve their long-term objectives. Our strategic planning process is tailored to meet the unique needs of each organization we work with, and we take pride in helping our clients achieve sustainable success. We start by conducting a comprehensive analysis of your organization to identify your strengths and weaknesses, as well as opportunities for growth and improvement. This analysis helps us understand your organization's unique challenges and opportunities and develop a strategic plan that is tailored to your specific needs. Our strategic planning services include setting clear and measurable goals and objectives, identifying key performance indicators, developing a detailed action plan, and establishing metrics to track progress and measure success. We also provide ongoing support to ensure that the strategic plan is executed effectively and that your organization stays on track to achieve its objectives.

Accreditation and Licensure:

Nangia Group and Sarvodaya Hospital are accredited and certified by various statutory bodies.
